

Year 3 & 4 comments.

Please comment in general about the usefulness of the session

I felt the session was very informative and gave me a better understanding of the curriculum and the Ofsted report. Also beneficial to see how the environment and topic is presented. Open floor in terms of questions and encourage and answered honestly.

The session gave me an insight into how the structure of the classes works. I was always confused about the mixed classes.
Visiting the classroom to observe part of the lesson was insightful I loved hearing about the curriculum is set out.
It was nice speaking with you (Mrs Trundley) on a more personal level as I've only ever said hello before.
I loved the schools approach to the Ofsted results and the transparency with us as parents.
Your approach to allowing the children to being honest regardless and understanding its best to be the best version of them really made me happy. I love that positive base for the day.

I found the session to be very useful. Especially with regards to the mixed year groups. I loved seeing Isabella in her classroom doing her normal day to day work.

The session has been a good way of understanding the background and why in which the Ofsted assessment was conducted, and how judgement was made.
I feel I understand more about how the curriculum is taught and broken down for the children.
It has also given me confidence that the school is talking through and well thought through actions to improve the Ofsted rating.

Gave an insight into how the school works. Let's you know what's put in place for the school after the inspection. Lovely to see your child in their class and seeing the lessons they are learning.

Happy with everything happening school. I would like see kids daily activities mainly in literacy and numeracy in seesaw would be helpful to teach them at home using the model used in the classes. Understood though we have curriculum in website but when search in google it was vast and as a parent I don't want them to teach the topic in a different pattern. So, a picture of daily worksheet in seesaw would be recommended.

This session was brilliant. Thank you for taking the time to share your plans for the school with us. It was informative and honest. I feel my child will benefit from the tweaks you've made as a result of the recent Ofsted visit. Thank you for allowing us into the classroom to see a lesson in action. It's great to be able to see and feel what that environment is like in real life. The teacher was great and prompted the children to think through the answers.

Fantastic opportunity to find out more about my children's school. Very informative and positive session. Great to find out about school curriculum and how Ofsted giving schools their findings. It was also great to see around the school and seeing my child in school. Great opportunity to have any questions answered in a friendly little group of parents.

Getting the explanation about the Ofsted over was really informative. Learning about how the mixed years work as well was really interesting. The breakdown of Geography was very thorough and it will be a lot of work for all the subjects, but if this doesn't satisfy Ofsted I'm not sure what will! I loved going into the classroom to see how the kids all are in that environment.

It was useful to hear what changes are being made – although not sure they are necessary. Was interesting to hear from Mrs Trundley her opinion on the Ofsted process.

It's interesting to hear more about how the Ofsted process works and why they decided to grade it the way they did. It's clear to see how much Mrs Trundley and the staff cares about the children and their education and wellbeing. Also lovely to see my child in their classroom.

<p>It was useful to be able to ask open ended questions without particular time constraints.</p>
<p>The session was a lovely opportunity to see first-hand the children working in class, and to speak openly about the ethos of the school and the recent Ofsted report. I feel the honesty and transparency from the senior leadership team is reassuring for me as a parent, and it is good to hear how the school or fighting back. Many thanks.</p>
<p>Great session, really informative and easy to understand. Very happy with the information/ explanations given. Grateful for the opportunity to see the school 'in action'. My daughter is very happy here, she's on the quieter side and traditionally these children 'in the middle' get overlooked which doesn't appear to be the case here. Thank you !</p>
<p>It has been a wonderful experience to hear the headmaster talk. There was a lot of talk about the Ofsted report which I didn't know about. It cleared up a lot of questions I had, and it was great to know that the school has acknowledged this. This school still has our full support. We feel it is still a great school and have no hesitation recommending to everybody.</p>
<p>Really useful to find out about curriculum for yr ¾ children in comparison to yr ½ (other child). Ofsted explained very well, I thoroughly disagree with Ofsted result – when presented with reasoning why etc. am very confident that my children are being taught well.</p>
<p>I thought it was a very informative session and really useful to hear about the Ofsted inspection from the point of the school/head teacher. It was lovely to have it in an informal way (round a table) not a formal set up eg. Rows in a hall. Loved walking round and going into the class/lesson. A little longer in the classroom would have been brilliant. Really appreciate the opportunity to come in and reaffirmed my view that it is a good school which I am happy to send my children to.</p>
<p>It was useful to hear about the Ofsted experience and gain an insight into how the judgement was reached. It was also handy to hear how the school is moving forward from this.</p>
<p>Useful to see how the curriculum is planned now over the years and to understand how it is taught with the mixed years. Clarity on how the mixed year classes are devised and the guidance for this. Good to see the changes that are being made in relation to the report.</p>
<p>The session was great to provide an understanding of and context around the Ofsted inspection. I think it is also helpful to enable parents to feel a part of the school and their child's academic journey.</p>
<p>Really useful session. Appreciated the open and honest approach and learned a lot about the Ofsted process, especially it's limitations.</p>
<p>Very helpful to hear what the school was evaluated on and how, and what is being done. Nice to see how the changes are happening.</p>
<p>Very helpful+ informative sessions which gave me a good understanding of how the different aged classes and curriculum works. Was very nice to spend time in class and see how they learn/work.</p>
<p>Very useful as I hadn't prior knowledge of how national curriculum is tailored by each school which is a huge resource intensive exercise. It feels that the external opinions on the school are unfair and it's nice to see the dedication of the school and staffs in making sure children's needs are met. Definitely feel the staff are doing their best!</p>
<p>It was refreshing to hear the school perspective on the recent Ofsted inspection and get an insight into this side of the school. It was lovely to be able to see my children in their classes during the school day.</p>
<p>Enjoyed hearing the schools perspective on the Ofsted. Really liked hearing the plans on what will be doing in the future and being invited into school more.</p>
