

Reception

Please tell us how this session could be improved or altered. Or is there an additional session we could offer you around a specific element?

The session was perfect and it would be great to get a chance to get into ... classroom as well as Thanks a lot.

Overall a great opportunity. Any additional sessions would be lovely.

Would love to have a small fact sheet or a print out of changed to teaching plan.

Spending time in the classroom was lovely so more of that. I think the idea of video comms is really valuable as parents find taking 2 hours at a challenge.

N/A this session offered everything I needed.

You can't improve perfection. Thank you to your school for my son ... development, educationally and as a wonderful human.

Not at the moment, I have learned and had the opportunity to ask questions so happy at the moment.

I can't think at the moment! It's been nice to all in and see the school and how they work.

The session was context specific regarding Ofsted, so that was appropriate. In future, perhaps something more subject specific, i.e computing, PE etc.

Additional sessions explaining more about year groups as our children move up through the school.

Hearing from pupils, have them show us around/tour the school.

I thought to structure and content was good. Nothing else needed.

It would be nice to see a lesson in operation outside, during part of the P.E. class.

Although the session was great, 2 hours is tricky in terms of time off work/childcare for younger children, maybe offer some shorter sessions.

Was very high level so would only need it once. Possibly specifics of year ahead if doing these sessions more than once.

I was happy with today's session. In general, I feel this/similar would be beneficial regular for school updates.

I don't think this session needs to be changed at present. Moving forward the Ofsted parts will not be needed, but the split class and curriculum information is essential for new year 1 parents.

In email notices and plans are it would be useful to have them noted which year applies (nursery to year 6) it can be a bit different to know what activities apply to which children when you have multiple.

Can important things be added to seesaw app? PE kit days, special lunches, parents evening, trips etc.

Would have liked more info on the splits earlier in the year to help increase parent understanding.

Cannot think of any things that could be altered as it was very informative and well planned.

Maybe I would have appreciated more insight on how classes work, like criteria used for grouping kids when doing activity.
